

**Viking XL Pink on Green Begonia*****Begonia 'Viking XL Pink on Green'***

Height: 27 inches

Spread: 3 feet

Spacing: 20 inches

Sunlight: ☉ ●

Hardiness Zone: (annual)

Group/Class: Viking Series

**Description:**

This extra large, densely mounded begonia stuns with its pretty pink flowers massed on top of green foliage; great for large patio containers, hanging baskets or in the garden; heat and humidity tolerant; low maintenance

**Ornamental Features**

Viking XL Pink on Green Begonia features dainty nodding pink orchid-like flowers with yellow centers at the ends of the stems from mid spring to early fall. Its attractive serrated lobed leaves remain green in color throughout the season.

**Landscape Attributes**

Viking XL Pink on Green Begonia is an herbaceous annual with a mounded form. Its medium texture blends into the garden, but can always be balanced by a couple of finer or coarser plants for an effective composition.

This is a high maintenance plant that will require regular care and upkeep, and usually looks its best without pruning, although it will tolerate pruning. Deer don't particularly care for this plant and will usually leave it alone in favor of tastier treats. It has no significant negative characteristics.

Viking XL Pink on Green Begonia is recommended for the following landscape applications;

- Mass Planting
- Border Edging
- General Garden Use
- Container Planting
- Hanging Baskets

## Planting & Growing

Viking XL Pink on Green Begonia will grow to be about 27 inches tall at maturity, with a spread of 3 feet. When grown in masses or used as a bedding plant, individual plants should be spaced approximately 20 inches apart. Its foliage tends to remain dense right to the ground, not requiring facer plants in front. This annual will normally live for one full growing season, needing replacement the following year.

This plant does best in full sun to partial shade. You may want to keep it away from hot, dry locations that receive direct afternoon sun or which get reflected sunlight, such as against the south side of a white wall. It does best in average to evenly moist conditions, but will not tolerate standing water. It is not particular as to soil pH, but grows best in rich soils. It is somewhat tolerant of urban pollution. This particular variety is an interspecific hybrid. It can be propagated by cuttings; however, as a cultivated variety, be aware that it may be subject to certain restrictions or prohibitions on propagation.

Viking XL Pink on Green Begonia is a fine choice for the garden, but it is also a good selection for planting in outdoor containers and hanging baskets. It can be used either as 'filler' or as a 'thriller' in the 'spiller-thriller-filler' container combination, depending on the height and form of the other plants used in the container planting. It is even sizeable enough that it can be grown alone in a suitable container. Note that when growing plants in outdoor containers and baskets, they may require more frequent waterings than they would in the yard or garden.
